POWER IS NOTHING WITHOUT PRECISION.

The most refined grinding experience ever.

Café-quality grinding and weighing precision come together with the new universal fork and the iconic King Size Grind Dial to create a seamless, perfectly balanced experience. Every adjustment feels intuitive, every dose effortlessly consistent.

Silent performance and high-speed blend into a smooth, grinding flow that adapts instantly to your routine, enhancing every moment of your coffee experience.

Crafted in Italy from premium materials and built with long-lasting components, it delivers reliability you can truly feel - grind after grind.

INSTANT GRIND WEIGHING TECHNOLOGY

Café-level precision, tailored to every coffee routine.

Coffee is weighed while grinding, ensuring exceptional precision with absolute ease. Guaranteed dose consistency up to 0.2 g, minimizing waste and maximizing cup repeatability.

Super fast, ready instantly

Ultra-fast calibration gets you up and running instantly: perfect for every home coffee experience. It saves you time and ensures smooth, uninterrupted performance, even on your busiest days.

Anti Vibration system

Unaffected by vibrations, accidental knocks or uneven surfaces, the weighing system brings café-grade solidity into everyday use.

Factory pre calibrated

Ready to perform from the first grind. Pre-calibrated to work flawlessly with any portafilter weight, no setup required.

DIAMOND BURRS POWER

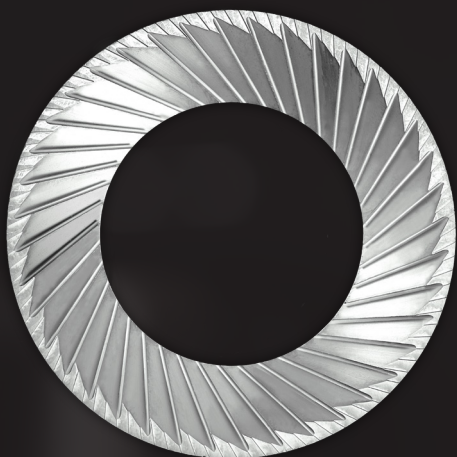

65 MM UPPER BLIND BURR

Innovative system with no screw holes designed to achieve the **lowest retention** and get a **more consistent grind output** thanks to a **wider grinding surface**.

DIAMOND INSIDE BURRS

Preserve the optimal burrs sharpness longer than any other burrs typology, keeping the granulometry constant for an exceptionally high quantity of ground coffee.

HIGH PERFORMANCE MOTOR

EUREKA ENGINE

The only one in the segment equipped with an **AC motor**, usually required by **professional barista**, due to its highest efficiency, resistance and durability over time.

HIGH-SPEED GRINDING

Powerful motor designed for consistency and reliability.

Fast grinding speed supports continuous service without compromising precision.

10 YEARS MOTOR WARRANTY

The device's motor is guaranteed for 10 years

PREMIUM MATERIALS

Built to last, reducing waste and boosting sustainability for years to come.

MADE IN ITALY

Absolute reliability over time, granted by the selection of the finest materials and quality of **Made in Florence**.

1 **SILENT TECHNOLOGY**

2 **NEW UNIVERSAL HEAVY-DUTY METAL FORK**

-Engineered for superior stability and effortless hands-free operation.

-Universal compatibility with portafilters of all brands and all sizes, including naked (bottomless) portafilters (lab tested).

3 **PREMIUM MATERIALS**

Built to last, reducing waste and boosting sustainability for years to come.

4 **HIGH-RESOLUTION TOUCH DISPLAY:**

- 2.8"
- 3 programmable doses
- Continuous mode
- Lock function.

5 **KING SIZE GRIND DIAL**

The oversized dial ensures maximum comfort and ultra-precise grind adjustments, giving you total control.

6 **DOSING FUNNEL INCLUDED**

For extra-large shot > 16 grams.

TECHNICAL DETAILS

BURRS

Type	Flat (upper blind)
Diameter	65 mm
Material	Pure Diamond

ENGINE

Type	AC
Traction	Direct
RPM	1650
Power	320 watt

DISPLAY

Type	Touch
Dimension	2.8"
Properties	3 programmable doses, continuous mode, lock function.

PERFORMANCES

Grind capacity (g/s)	2 - 3,5 (espresso)
Dose consistency	+/- 0.1 grams
Noise level	70,9 dB
Preparation time for a double dose (18g)	<9 seconds

DIMENSIONS

Height	410 mm
Width	125 mm
Depth	195 mm
Weight	8 kg
Bean Hopper capacity	300 g (with metallic tab)

EXTRAS

Dosing funnel	Included
---------------	----------

WARRANTY

The device's motor is guaranteed for 10 years

SUGGESTED USED

Espresso

STANDARD COLOURS

- Matt Black
- White

SPECIAL COLOURS AND FINISHES

- Chrome

OPTIONALS

Special wirings, plugs (AUS, GBR, CHE, CHN, KOR, HKG)
110V version (USA, JPN)
Schuko cable 2 meter
